SKILLS

- Python (My Favorite Language)
- HTML
- CSS
- Basic JavaScript
- Problem Solving
- Typing Speed & Accuracy
- Microsoft Office

HOBBIES

Typing

Playing Cricket

Athletics

EDUCATION

Class 10

Current Student

Focused on academics along with building strong programming and computer skills.

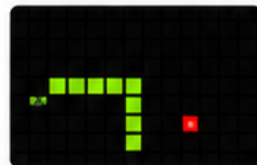

CAREER OBJECTIVE

To build a successful career in the field of Computer Science and Technology by improving my coding skills, creating useful projects and solving real-world problems through technology.

PROJECTS

1. Snake Game (Python)

A simple Snake Game built using Python (Turtle Module). It was my hands-on practice with logic building and game development.

2. Personal Website

A personal website created using HTML and CSS. It contains multiple sections like Home, About, Projects and Contact.

ACHIEVEMENTS

Won in **Typing Competition** for speed and accuracy.

Won in **Project Making Competition** for creative and unique project ideas.
